

6/7/10 (3)

My name is Rachel Schwartz and I am currently a sophomore at the University of Massachusetts, Amherst. Attending any University under these current economic conditions creates a hardship for most families. My father, although beginning to work now, has been out of work for nearly 2 years. This puts a huge financial strain on my family. Both my older brother and I are currently enrolled in college. Having two children in college is difficult for my parents, and therefore I have college loans to pay off. I also have become an EMT at my school, which cost me personally 700 dollars to fulfill the course and the requirements.

I am a pre-nursing student, hoping to attend school to become a nurse practitioner after I graduate in two years. This will be an added expense that I will need to worry about upon graduation. Any bit of money I can put towards my education is extremely valuable and very much appreciated. I hope you will consider my application for this scholarship and help me to pay for my schooling.

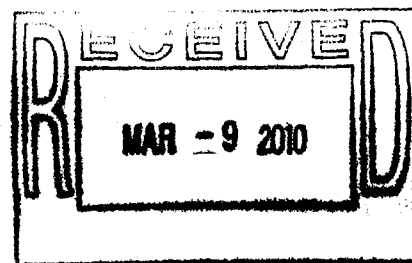

Thank you very much,

Rachel Schwartz

Hi,

My name is Erin Sweet and I have been living in Acton since kindergarten. I am going into my sophomore year at Lesley University with my major being special education and history. My first term at Lesley University, I was on the Dean's List with a 3.96 grade point average.

I have been living in a single parent household with my brother and mother.

Unfortunately, my mom is not financially able to help me pay for college; therefore I am paying for my tuition by myself. I am working on the weekends and during the summer I work at NARA park. Despite all of this, my Lesley University tuition is overwhelming. Any help that has been given to me has always been greatly appreciated.

Thank you for considering my application,

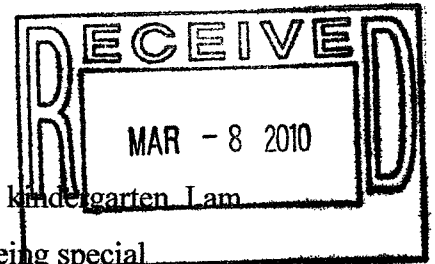

*Erin Sweet*
